On behalf of the above Patent Holder, and being authorized by the Patent Holder to make such statements, the following is indicated with respect to any patent(s) necessary for the practice of any or all normative portions of the above Reference Document as it exists on the date of submittal of this form, should such Reference Document be approved as a Standard:

The undersigned Patent Holder states one of the following:

- a) A license under any essential patent(s), the license rights to which are held by the undersigned patent holder, will be made available to all applicants under terms and conditions that are reasonable and nondiscriminatory, without monetary compensation, and only to the extent necessary for the practice of any or all of the normative portions of the above reference document for the field of use of practice of the standard.
- b) A license under any essential patent(s), the license rights to which are held by the undersigned patent holder, will be made available to all applicants under terms and conditions that are reasonable and nondiscriminatory, which may include monetary compensation, and only to the extent necessary for the practice of any or all of the normative portions of the above reference document for the field of use of practice of the standard.

The statement marked above is irrevocable and shall be binding upon the undersigned. In the event the rights of the undersigned in and to the patent subject to such commitments are assigned or transferred, the undersigned shall notify the assignee or transferee of the existence of such commitments and shall include provisions sufficient to ensure that such commitments are binding upon the assignee or transferee.

The assignee or transferee shall similarly notify future assignees or transferees and shall include similar provisions sufficient to ensure that such commitments are binding upon future assignees or transferees. The intent of this provision is to be binding on successors-in-interest regardless of whether such provisions are included in the relevant transfer documents.

If none of the above paragraphs are marked, the undersigned patent holder states that it declines to make any commitments to license on the terms set forth herein.

Agreed on behalf of the above patent holder:
