

# Guide to Normative and Informative References for AISC Certification Programs

*Issued 7/15/2024 supersedes 10/1/2023 version*

Dates given below represent the most current version known at the time of update of this list.

**This list is a guide to assist with maintaining a current library of reference documents. “Required” (Normative) references are those listed in the Certification programs, Program Requirements, and typical construction documents. “Recommended” (Informative) references are either listed in commentary or found to be useful. Specific Customer requirements, Company procedures, and construction documents may require other references or a revision/version that is different from the most recent listed here.**

**NOTE: A summary of changes is provided at the end of the document and the changes are noted in *Italics***

1. References for ALL Certification Programs	Revision Year
<b>Required (Normative)</b>	
<i>AISC Governing Requirements for Certification Programs</i>	<i>6/1/2024</i>
<i>AISC 207-23 Standard for Certification Programs</i>	<i>9/2023</i>
ANSI/AISC 303 Code of Standard Practice for Steel Buildings and Bridges	2022
RCSC Specification for Structural Joints Using High-Strength Bolts	6/11/2020
<i>Access to ASTM Standards for Structural Steel Fabrication (provided by AISC, or equivalent)</i>	<i>varies</i>
AWS A2.4 Standard Symbols for Welding, Brazing and Nondestructive Examination	2020
AWS A3.0 Standard Welding Terms and Definitions	2020
AWS D1.1/D1.1M Structural Welding Code – Steel	2020
<b>Recommended (Informative)</b>	
AWS B5.1 Specification for the Qualification of Welding Inspectors	2013
AWS B5.17 Specification for the Qualification of Welding Fabricators (replaced AWS WQAG)	2014
<b>2. Building Fabricator</b>	
<b>Revision Year</b>	
<b>Required (Normative)</b>	
<i>AISC Supplemental Requirements for Building Fabricators</i>	<i>6/1/2024</i>
ANSI/AISC 360 Specification for Structural Steel Buildings	2022
ASTM F3125/F3125M Standard Specification for High Strength Structural Bolts	2021
Standards and specifications applicable to the fabricator’s product, process, and/or contract documents	varies
<b>Recommended (Informative)</b>	
ANSI/AISC 341 Seismic Provisions for Structural Steel Buildings	2022
ANSI/AISC 358 Prequalified Connections for Special and Intermediate Steel Moment Frames for Seismic Applications	2022
AISC Steel Construction Manual	16th Ed.
AISC Detailing for Steel Construction	3rd Ed.
AWS D1.4/D1.4M Structural Welding Code—Reinforcing Steel	2018
AWS D1.8/D1.8M Structural Welding Code—Seismic Supplement	2021
ASTM A6/A6M Standard Specification for General Requirements for Rolled Structural Steel Bars, Plates, Shapes and Sheet Piling	2021

# Guide to Normative and Informative References for AISC Certification Programs

*Issued 7/15/2024 supersedes 10/1/2023 version*

Dates given below represent the most current version known at the time of update of this list.

**This list is a guide to assist with maintaining a current library of reference documents. “Required” (Normative) references are those listed in the Certification programs, Program Requirements, and typical construction documents. “Recommended” (Informative) references are either listed in commentary or found to be useful. Specific Customer requirements, Company procedures, and construction documents may require other references or a revision/version that is different from the most recent listed here.**

**NOTE: A summary of changes is provided at the end of the document and the changes are noted in *Italics***

<i>ISO 17607: 1-6 Steel Structures - Execution of structural steelwork</i>	2023
<b>If shop primer is applied, the following may be required:</b>	
Manufacturer’s Product Data Sheet or equivalent	Current
SSPC PA 1 Shop, Field and Maintenance Coating of Metals	2016
SSPC SP 1 Solvent Cleaning	2016
SSPC SP 2, Hand Tool Cleaning	2018
ASTM D4414 - Standard Practice for Measurement of Wet Film Thickness by Notch Gages	2020
VIS-3 - Guide and Reference Photographs for Steel Surfaces Prepared by Power and Hand Tool Cleaning	2007
<b>If other coatings are being applied (those that require special care in surface preparation, application control, curing, and in-process inspections. e.g. zinc-rich, epoxy, urethane, multi-coat systems), in addition to the above, the following may be required also: NOTE: for Complex Coatings Endorsement refer to the appropriate section below.</b>	
SSPC PA 2 Procedure for Determining Conformance to Dry Coating Thickness Requirements	2022
SSPC SP 3, Power Tool Cleaning	2018
SSPC SP 6/NACE No. 3, Commercial Blast Cleaning	2006
ASTM D4414 - Standard Practice for Measurement of Wet Film Thickness by Notch Gages	2020
VIS-3 - Guide and Reference Photographs for Steel Surfaces Prepared by Power and Hand Tool Cleaning	2007
<b>3. References for Highway Component Manufacturer</b>	
<b>Required (Normative)</b>	<b>Revision Year</b>
<i>AISC Supplemental Requirements for Highway Component Manufacturers</i>	6/1/2024
ANSI/AISC 360 Specification for Structural Steel Buildings	2022
AASHTO/ASTM standards applicable to the component manufacturer's product and/or contract documents	varies
<b>Recommended (Informative)</b>	
AWS D1.2/D1.2M Structural Welding Code – Aluminum	2014
AWS D1.3/D1.3M Structural Welding Code—Sheet Steel	2018
AASHTO/AWS D1.5/D1.5M Structural Welding Code - Bridge Welding Code	2020
AWS D1.6/D1.6M Structural Welding Code—Stainless Steel	2017
AWS D1.8/D1.8M Structural Welding Code—Seismic Supplement	2021
<b>If shop primer is applied, the following may be required:</b>	

# Guide to Normative and Informative References for AISC Certification Programs

*Issued 7/15/2024 supersedes 10/1/2023 version*

Dates given below represent the most current version known at the time of update of this list.

**This list is a guide to assist with maintaining a current library of reference documents. “Required” (Normative) references are those listed in the Certification programs, Program Requirements, and typical construction documents. “Recommended” (Informative) references are either listed in commentary or found to be useful. **NOTE: A summary of changes is provided at the end of the document and the changes are noted in *Italics***

SSPC SP 6/NACE No. 3, Commercial Blast Cleaning	2006
SSPC SP 7/NACE No. 4, Brush-Off Blast Cleaning	2006
SSPC SP 10/NACE No. 2, Near-White Metal Blast Cleaning	2006
SSPC PA 1, Shop, Field, and Maintenance Coating of Metals	2016
SSPC PA 2, Procedure for Determining Conformance to Dry Coating Thickness Requirements	2022
SSPC PA 17, Procedure for Determining Conformance to Steel Profile/Surface Roughness/Peak Count Requirements	2020
SSPC VIS 1 Guide and Reference Photographs for Steel Surfaces Prepared by Dry Abrasive Blast Cleaning	2012
SSPC VIS 3 - Guide and Reference Photographs for Steel Surfaces Prepared by Power and Hand Tool Cleaning	2007
ASTM D3276 Standard Guide for Painting Inspectors (Metal Substrates)	2021
ASTM D4228 Standard Practice for Qualification of Coating Applicators for Application of Coatings to Steel Surfaces	2005 (2023)
ASTM D4285 - Standard Test Method for Indicating Oil or Water in Compressed Air	2018
ASTM D4417 Standard Test Methods for Field Measurement of Surface Profile of Blast Cleaned Steel	2019
ASTM D7091 Standard Practice for Nondestructive Measurement of Dry Film Thickness of Nonmagnetic Coatings Applied to Ferrous Metals and Non-Ferrous Metals	2022
Standards and specifications applicable to the fabricator’s product, process, and/or contract documents	varies
<b>Recommended (Informative)</b>	
SSPC AB3 – Ferrous Metallic Abrasive	2023
ASTM D4752 - Standard Practice for Measuring MEK Resistance of Ethyl Silicate (Inorganic) Zinc-Rich Primers by Solvent Rub	2020
AMPP Guide 21614-2023, Guide for Improving the Statistical Quality of Dry Coating Thickness Data on Ferrous and Non-ferrous Metal Substrates Using Continuous Read/Scanning Technology	2023
ISO 8502-9, Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 9: Field method for the conductometric determination of water-soluble salts	2020
ISO 8502-6, Preparation of steel substrates before application of paints and related products — Tests for the assessment of surface cleanliness — Part 6: Extraction of soluble contaminants for analysis - The Bresle method	2006

# Guide to Normative and Informative References for AISC Certification Programs

*Issued 7/15/2024 supersedes 10/1/2023 version*

Dates given below represent the most current version known at the time of update of this list.

**This list is a guide to assist with maintaining a current library of reference documents. “Required” (Normative) references are those listed in the Certification programs, Program Requirements, and typical construction documents. “Recommended” (Informative) references are either listed in commentary or found to be useful. Specific Customer requirements, Company procedures, and construction documents may require other references or a revision/version that is different from the most recent listed here.**

**NOTE: A summary of changes is provided at the end of the document and the changes are noted in *Italics***

## Summary of changes

- AISC 207-20 revised to 207-23
- All Governing and Supplemental Requirements revised to 6/1/2024
- ASTM online access subscription from AISC, or equivalent
