Steel Fabrication Detailers

Egger Steel Company is an AISC steel fabricator that has been established for 71 years. Fabrication and detailing includes structural and miscellaneous steel for commercial, industrial, and bridge projects. We are in search of full-time steel detailers. The desired individual should have experience with the construction industry, the ability to read blueprints, and computer knowledge. AutoCAD or Tekla experience is highly desired. This individual should have initiative, responsibility, good work ethics, and good communication skills.

Egger Steel Company provides a stable and dependable position with opportunities to grow within the company. Starting pay is dependent on experience. We offer a competitive benefit package.

Please send resumes to hr@eggersteel.com.

Director of Sales

Merrill Steel is the largest structural steel fabricator in Wisconsin and is looking to fill a key role on the executive management team.

Reporting directly to the President, the Director of Sales provides leadership, direction, and resource stewardship to the Sales function. As the company's senior-most Sales leader, this person is responsible for overall Sales team effectiveness, the profitable achievement of Sales goals, and for aligning Sales objectives with the company's business strategy. The role is located in Schofield, WI. Travel is expected to be less than 25%, but could be significant at times.

Resumes can be sent directly to mohrt@merrillsteel.com.
